RMS Marina

A Marina Management System that enables you to operate your business more effectively and efficiently is a necessity.

One that streamlines tasks and easily delivers all essential management information is also a necessity.

RMS Marina is the management solution that puts you in control.

RMS - A Complete Solution

To be successful, an operation must deliver a high quality service in order to maintain client satisfaction and attract new business. The RMS Solution provides the tools to assist you and your staff to achieve this by improving the efficiency of operational, administrative and marketing activities.

We appreciate that every marina is different, each will comprise of a variety of business activities:

- Reception
- Berthing / Mooring
- Boat Yard
- Chandlery / Shop
- Boat Sales
- Restaurant
- Hotel, Chalets
- Arrivals / Departures
- Contracts
- Sub-letting
- Membership / Loyalty
- Contact Management
- Marketing
- Reports & Analysis

RMS will provide your business with an integrated solution that will readily and easily accommodate every aspect of your business:

- Booking Chart / Berth Manager
- Active Graphical Interface (optional)
- Post Code Look-up
- Estimates and Quotations
- Metered Gas, Water, Electricity Utility
- Boat Yard Scheduling
- Boat Sales Assistant
- Asset Management
- Berth Maintenance & History
- Fully featured Membership database
- Full Accounts Receivable and Payable
- Stock Control
- Accounts Link
- Documents Manager—receipts, invoices, emails, letters, statements
- Standard Reports & Report Generator

RMS ePOS, Membership & Loyalty

RMS ePOS is a fully-featured Point of Sale system that seamlessly integrates with your Property Management Solution so that Members, Guests and Boat Owners can charge bills from your Restaurant, Bar & Chandlery to their berthing account.

RMS Online

Our internet booking engine will provide your business with a significant advantage in marketing your Marina to the world. Instant availability and email confirmations of advance berthing bookings are securely processed and written to your Marina Management System in real-time.

Welcome to the new level of **Marina Management Software**

RMS has been developing reservation management systems since 1983 and now, with more than 2500 clients world wide, has grown to a position of industry leadership.

We pride ourselves on producing and delivering easy to use, reliable software.

Our commitment to continuous development and support ensures our clients maintain a competitive edge.

RMS Multi - Location

The RMS Multi-property option allows you to grow your business and retain central control.

RMS Multi-Property:

- Is scalable from 1 to 1000 locations & operations
- RMS - a multi functional system, is able to combine your Marina management in one data repository with Hotel, Apartment, Restaurant and Park operations
- Streamlines billing, procedures and correspondence
- Reduces administration and management costs by centralising contact and financial information, secure, but available for accountants and managers to access from anywhere
- Centralises information for users
- Has flexible user profiling for security

Supporting you all the Way

Experience gained over 25 years of working closely with our clients has provided us with a wealth of expertise and knowledge that is applied to our products, training and support.

Extensive resources are committed to providing a range of support services and training options.

As your industry evolves and technology advances - your property management system should evolve with you as well.

We provide regular product updates with development improvements that cross-pollinate across your industry.
