

## Client Request for RMSWeb

I request to be connected to the RMSWeb system.

RMS Client No.: \_\_\_\_\_

Property Name: \_\_\_\_\_

Contact Name: \_\_\_\_\_

Contact Number: \_\_\_\_\_

In order to answer the questions below, provide your technician with the RMSWeb Connection Protocols for your Local Technician form to complete. As local information is required the RMS Support Team cannot assist with the below document.

This document can be found on the RMS Web page [www.rms-global.com](http://www.rms-global.com) under the Our Products button > RMSWEB.

If you choose to move to our RMS Hosted solution you will not be required to complete any of the below questions and your link to RMSWeb will be instant, if you would like further information on RMS Hosted please email [sales@rms-global.com](mailto:sales@rms-global.com).

My Static / Dynamic Address is: \_\_\_\_\_

- My technician has successfully completed the RMSWeb Connection Tester.
- I have version 8.11.415 of RMS or higher installed. If you are not currently using this version, please log a service request through the RMS Web page [www.rms-global.com](http://www.rms-global.com) to request the upgrade.
- I am using SQL Express 2005 or higher.
- I require the new RMS Online URL address for my bookings page.

Please fax this Request to RMS on 03 9335 2082.
